**Popular options include:**

Car ceiling enclosures @ \$150 per car

Lobby surface mount fixture with chamfered sides saves cutting into marble or masonry walls (master station built inside) @ \$750

2nd digit display on master station @ \$125 per master station

Single-digit display masters are automatically set to the number of cars in the bank. We are happy to preset your displays to other numbers or limited alpha which will save your mechanics time in the field. This may add to your lead time for shipping your intercom.

No additional charge.

Master station assembly for mounting in custom fixture (“guts only”) No charge.

**Additional Charges:**

Regular shipments go out UPS ground within 4 business days unless otherwise requested. We can sometimes accommodate earlier shipments for an additional \$150 expedite fee per intercom. This charge is to bring someone in off-schedule, pack & drive the shipment to UPS.

Restocking Fee for returned parts @ \$75 per each item.

JFillips does not offer master-to-master communication on any intercom.
